

Good evening

As many of you have heard, school has been called off by the Governor of North Dakota until further notice.

I appreciate all the support and cooperation that parents have provided over the last week.

I was able to contact almost all of our parents today to either come in to pick up your students supplies or to make arrangements to do so tomorrow or a later date.

For those that I was unable to contact today, I will try and do that tomorrow. You can also call the school and request a time to do this.

A couple of things that the Governors announcement means to you and that you should know.

1. We will continue to provide lunch service and delivery to those students that have requested it.

We will begin this service again on Tuesday. If you would like your student to be added to this, please call the school and let me know.

2. Mr. Kersten, myself and a committee of teachers from NUS will be meeting on Monday to work on finalizing our plan on how we are going to continue to provide an adequate and equitable education for your students.

I believe we have a very good start with this, but more work is needed to be done.

3. We will submit our plan to the Department of Public Instruction by next Friday.

If our plan is approved, we will be able to provide online resources and other equitable learning resources off-site to our students.

4. If the plan is approved- those days and times will count towards our student contact hours for the school year.

5. Again, please check our Facebook and website for any updates. I will continue to have Mrs. Godfrey and Mrs. McNeil post these texts on those sites as well.

6. I can't express how grateful I am to our staff, students and parents for doing whatever needs to be done in order to help each other out during this pandemic.

Thank you for your continued support.

Mr. Beaudrie.
